

2x1 USB Peripheral Switch

The Belkin 2x1 USB Peripheral Switch (the Switch) gives multiple computers access to a single USB 1.1-compliant device-such as a printer, camera, scanner, or an external storage device. It offers a convenient design and easy-to-use switching software that gives you immediate access to your USB device. Once connected, your device stays available to all connected computers, eliminating the need for you to unplug and reconnect it to another computer.

Benefits

- Gives multiple computers access to a single USB 1.1-compliant device
- Features our easy-to-use software and hot key switching
- Works with USB 1.1 and 2.0 devices at transfer speeds of up to 12Mbps
- Connects a USB device at up to 30 feet from your computers.
- Installs and operates easily
- Comes with a Belkin 2-Year Warranty
- Supports one USB 1.1-compliant device
- Includes active-port LED indicators for clear identification of which computer is being used
- Requires no power supply
- Includes easy-to-use software interface for Windows users
